Re: Cessation Order No. Mc 2006-04-00 and Red Dome Inc.'s Request for Stop Work Conference.

Dear Ms. Wright;

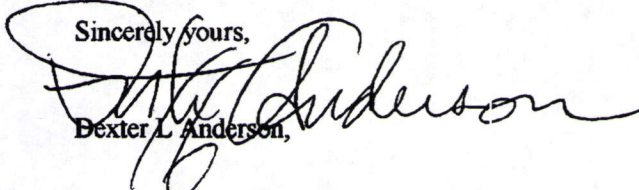

On February 22, 2006 Thomas Munson from your department claims to have served a Cessation Order at "11:30 P.M" on Red Dome Inc. at its mine site near Fillmore, Millard County, Utah. Red Dome Inc. objects to the tactic. Never the less Red Dome Inc. request an immediate Stop Work Conference as provided for at paragraph 2 on the back of the form within the 5 days provided. Red Dome request the hearing on Monday February 27, 2006 at the mine sight 5865 S. 200 W. Fillmore, Utah. Tuesday the 28th and Monday the 1st of March are not available to us.

Red Dome request that the order be terminated or vacated immediately or modified to an order not requiring cessation of mining.

As you know Red Dome Inc. has diligently attempted to perfect the mining plan already approved by the Bureau of Land Management some time ago, to your departments satisfaction, we believed to be in good faith on both parties part and at great expense to Red Dome Inc.. Under the status of the file and history of this matter, the Cessation Order was arbitrary and capricious on your department's part. As your attorney advised me last week there appears to be frustration on both sides and suggested that the parties continue to resolve the differences in an amenable manner as the Board does not want to hear such matters. Red Dome continues to be willing to proceed in that suggested manner but not under a Cessation Order requiring cessation of all mining.

Please advise me of the appropriate time on Monday the 27<sup>th</sup> of February 2006, for this requested stop work conference.

Sincerely yours,

  
Dexter L. Anderson,
